Professional solutions for painters *since 1975*

NOW MORE THAN EVER, **HURRAY FOR COLOUR!**

Dear customers:

Once again, we are pleased to present you the new 2021-2022 catalogue.

In this edition we have included new references in order to meet the current market needs.

Our aim is always to be up to date with the latest and most necessary tools for both DIY enthusiasts and high decoration professionals, offering a variety of products as complete and updated as possible.

The structure of the new catalogue makes it easier and more practical to consult the references and finishes of our items, with new informative pictograms and high quality photos. The user can easily find the product he/she is looking for according to what he/she needs most.

Thank you once again for the trust you have placed in our company.

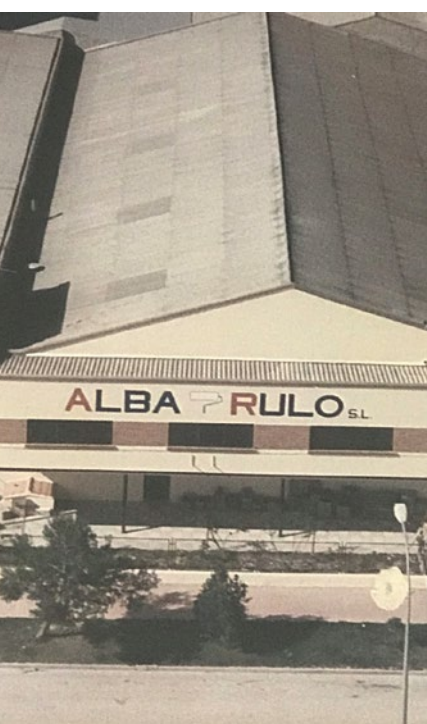

Kind regards,

Nave ABR en la actualidad

A brief history of ABR

ALBA-RULO warehouse in 1988

Alba-rulo,s.l., started its activities in 1975, which means that it has been in the market for more than 45 years.

It was founded by José Ramiro (father) and his family, in the beginning it was only dedicated to the manufacture of paint rollers. Nowadays José Ramiro (son) is the manager of ABR.

From a very young age, we have always aimed to provide an excellent service and a high quality product for the complete satisfaction of our customers.

In 1987, we set up in a 2000m2 warehouse in the ALBACETE INDUSTRIAL ESTATE, incorporating the manufacture of brushes, buckets and various accessories for the painter.

Over the years we have incorporated new product lines in order to provide our customers with an integral solution to their needs, as well as new machinery to increase our manufacturing capacity.

In 2018 the name changed to the acronym ABR.

Currently our facilities are located in the CAMPORROSO ESTATE (CHINCHILLA DE MONTEARAGON), in a 4000m2 warehouse.

We have more than 3000 active customers, 3,000,000 units produced, more than 1500 references, including 300 different types of rollers and 250 types of brushes.

Our company has its own export department with points of sale in 9 countries.

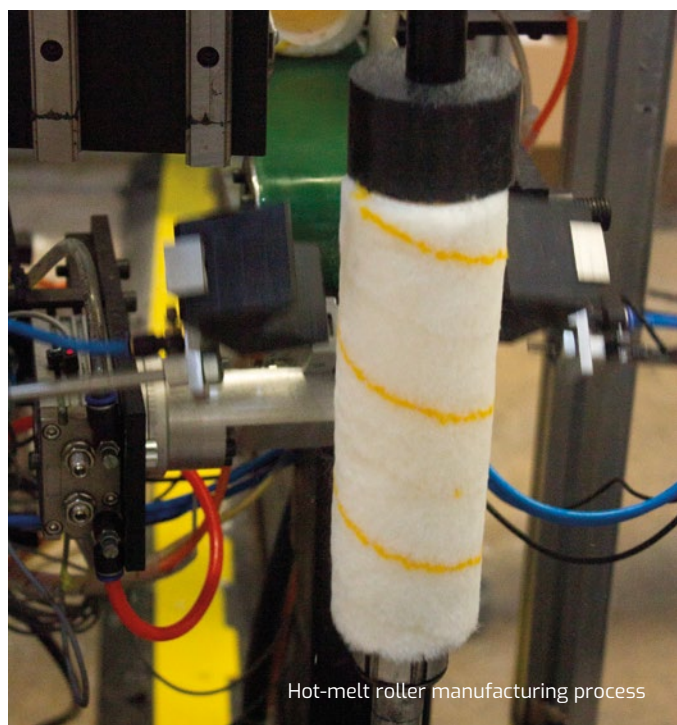

We have an excellent human team which is permanently trained in order to be updated in the changes and needs of our sector.

In this year 2021, we continue to maintain the same values and the same eagerness that we had in the past, to provide a service and product that gives complete satisfaction to our customers.

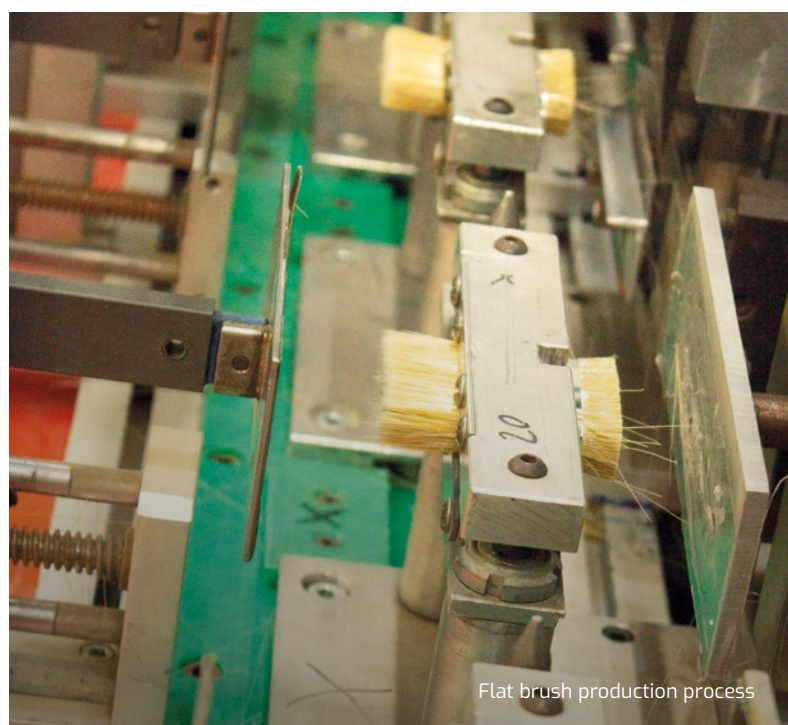

The evolution of our logo

At ABR we are committed to in-house production

Hot-melt roller manufacturing process

Flat brush production process

Made  in Spain

Round brush production process

Paper manufacturing process

Our objectives

Research and development

Day after day, we strive to make our production processes as precise and efficient as possible. To this end, we use the most advanced technology, designed exclusively for the manufacture of our products. We spend more than 1,500 hours on research and development.

Products

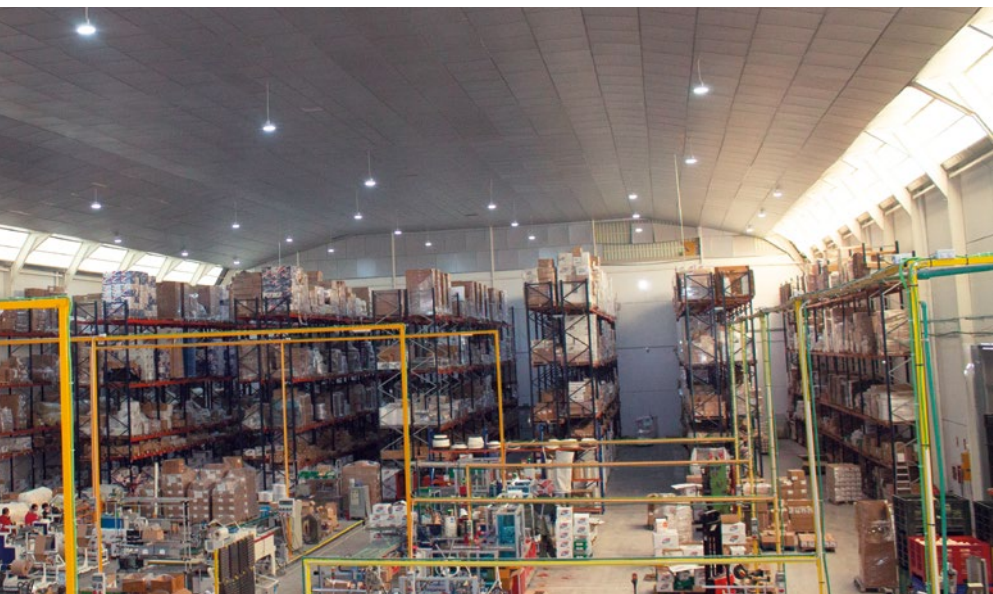

We have more than 1500 references, more than 300 types of rollers and 250 types of brushes. We are always updating our articles to meet the increasingly demanding needs of decoration professionals. New roller fabrics, lighter and more ergonomic materials for the handles... and everything necessary to fully meet the needs of our customers.

Shipping

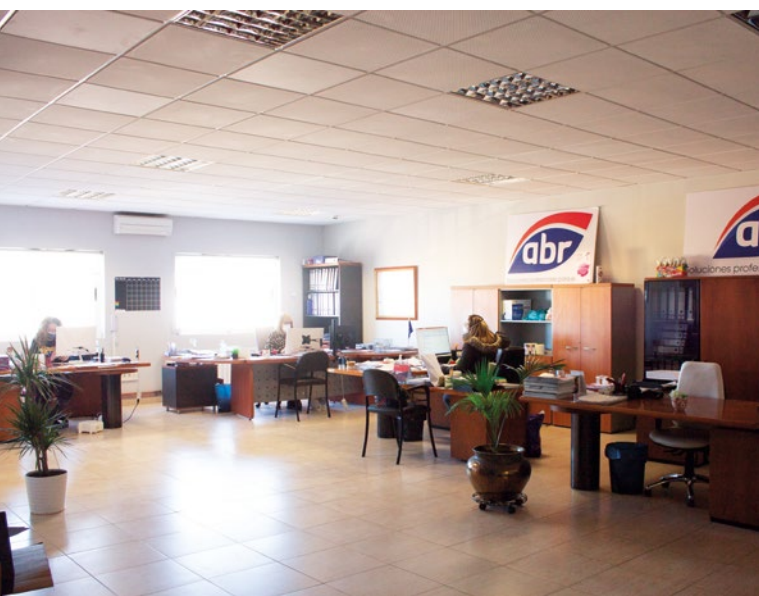

Fast and efficient, that is what we offer to our clients, so that they feel at ease and confident.

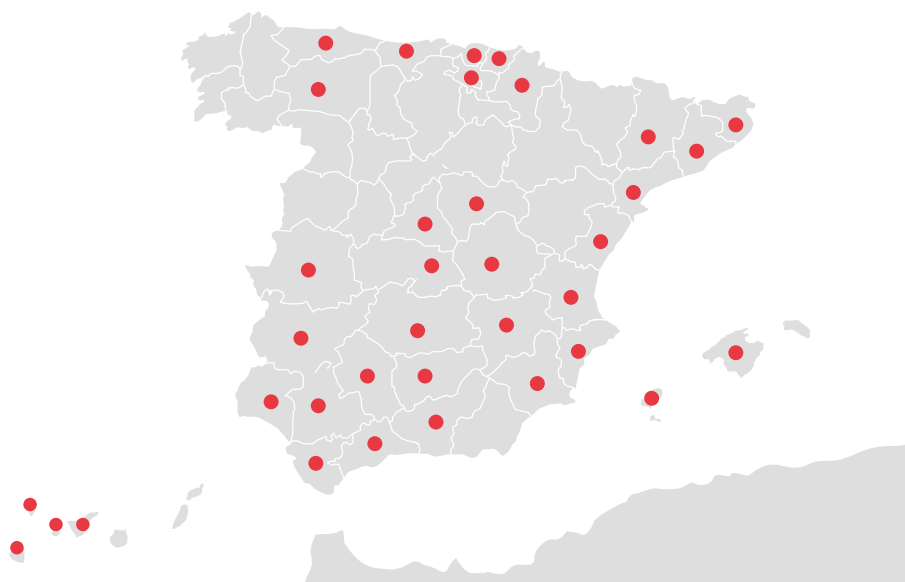

Manufacture

We have included in our facilities a large number of machinery, exclusively for the manufacture of our products.

Personalised customer service

Personalised advice by telephone to each of our customers, sales and after-sales service.

Delegates

ABR's network of sales representatives is responsible for providing exclusive, personalised and direct service in each customer's area. More than 25 sales representatives at present.

Key painting steps

1 Prepare

Step 1: We repair holes and cracks with spatulas

Before any decoration and painting project, it is essential to prepare and clean the masonry, concrete or slab walls, whether they are new or with previous coats, all before the application of the new paint. For this purpose we have the right tools for each step.

Step 2: Sanding the surfaces

After repairing the wall we must remove the rest of the product, we will use sandpaper suitable for this job. At the same time we will remove possible fine cement plaster, or any other imperfections. Sanding will create a surface suitable for painting.

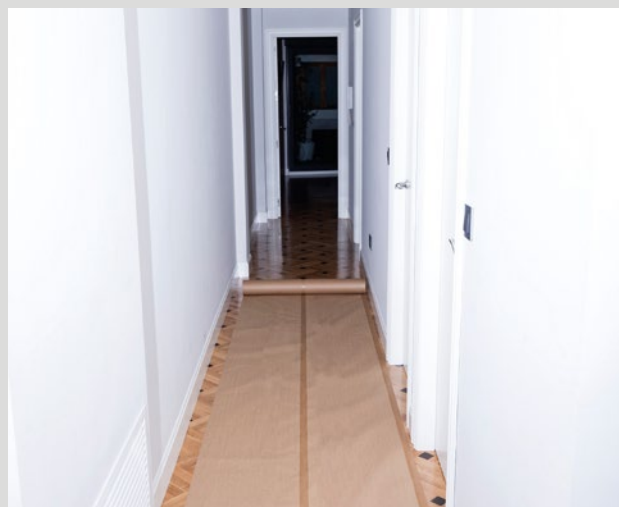

2 Protect

Before any painting or maintenance work, it is necessary to properly cover and protect the elements that you do not want to stain.

The most suitable products for covering and protecting before painting are protective paper and plastic, as well as plastic covers and masking or painter's tape. And the special extra-strong professional papers for the most demanding.

We will always use the appropriate tape for each project, as each one has different levels of adhesive, as well as the paper, each one of them is made with a different grammage.

3 Apply

Once the previous steps have been completed, the paint can be applied with complete peace of mind.

The tools to be used range from flat, round and paint brushes. To rollers of different sizes and fabrics.

Rollers and spare parts		Pages. 11 - 74

When colour makes *the difference*

Not all painter's tool users are the same, each one carefully chooses the roller, brush or paintbrush that best suits their professional or DIY projects. That's why at ABR, we have four different series to suit every job and every customer.

Our ranges

The ABR ranges are differentiated by four different colours, BLACK, RED, BLUE and ORANGE.

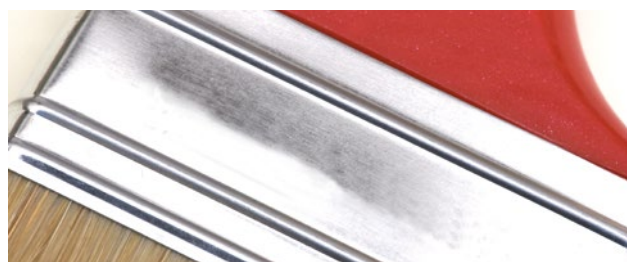

Deluxe Series

The highest range of ABR, of excellent quality and design, manufactured with the best materials, for the professionals of High Decoration.

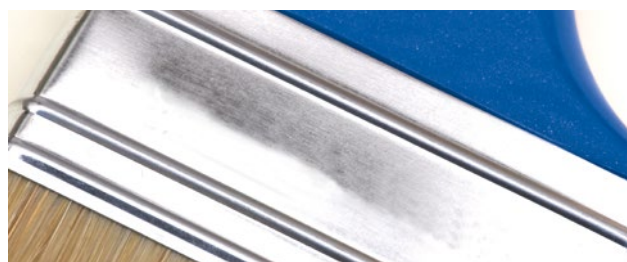

Pro Series

Our professional range, for the most demanding professional painters, top quality materials.

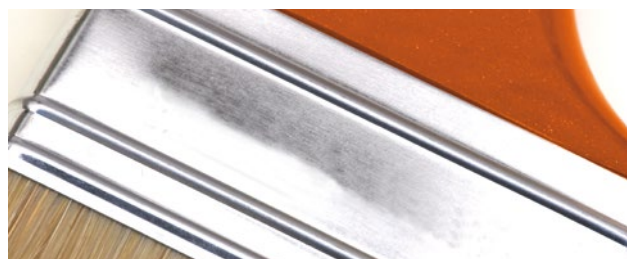

Extra Series

The best QUALITY-PRICE range. Good quality at an excellent price.

Eco Series

For do-it-yourself use, within reach of all customers.

Rollers and Spare Parts

Table of fabrics and recommended uses of each roller

Fabric type	Designation

Made of polypropylene plastic. Finger grip at the top. Red colour. Hole for the display.

Length: 16,5 cm
Diameter: 3 cm

Blue plastic (Extra Series)

Made of polypropylene plastic. Finger grip at the top. Blue colour. Hole for the display

Length: 16,5 cm
Diameter: 3 cm

Orange plastic (Eco Series)

Made of polypropylene plastic. Finger grip at the top. Orange colour. Hole for the display.

Length: 16,5 cm
Diameter: 3 cm

Green plastic

Made of polypropylene plastic. Finger grip at the top. Green colour. Hole for the display.

Length: 16,5 cm
Diameter: 3 cm

Bimat

Made of bi-material handle, extra comfortable, fits perfectly in the hand, in two colours black and red..

Length: 16 cm
Diameter: 3 cm

Wood

Made of walnut-coloured beech wood, finished with a zinc-plated ferrule. For the most demanding professionals.

Length: 16 cm
Diameter: 3 cm

Meaning of pictograms of our spare parts and rollers

Types of manufacture and technical characteristics

Merino wool

100% merino wool.
Selected by hand.

This type of wool is one of the most appreciated for its excellent quality.

Traditional sewing

This manufacturing process consists of sewing in a handmade way, using a traditional fur sewing machine. It makes a seam similar to the overlocker, crossed. It is then inserted into the groove of the inner tube of the roller.

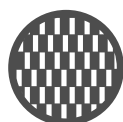

Padding

Manufacturing system with padded foam, which is placed around the inner tube of the hand-sewn rollers. This facilitates the application and performance when painting on rough facades and walls.

Thermofusion

This innovative manufacturing system is carried out with special industrial machines, which join the fabric to the tube, so there are no seams at all to avoid marks when painting.

Fibres

Made of strong and highly absorbent synthetic fibres. Different height sizes and types of fabrics to suit every painting job.

Rod diameter

Diameter of replacement rod or paint roller.

Rounded

Rounded roller end for easy access to corners and sides to avoid marks when painting.

Replaceable

Paint rollers or mini paint rollers, which can be replaced by a new one once used, keeping the same rod.

Introducing the new ABR polypropylene handle for rollers and spare parts

We have changed the P.P. handle design of the rollers and replacement handles, in bright red for the PRO Series, blue for the EXTRA Series and orange for the Eco Series.

Floor rollers

Epoxy or polyurethane floors or pools

Due to the special characteristics of this type of work, we need the right rollers.

In this case, the rollers are textured polyamide rollers, which are larger than conventional rollers to cover more surface area.

 Nylontex pro polyamide texturised high load roller with p.p. handle

Item Code	Measure	ø	Units box
8427193 032045	22 cm	50 mm	24
8427193 026211	25 cm	50 mm	24

Excellent covering and performance capability for floors, special high-loading 15 mm textured polyamide. Made in hotmelt so it does not leave any marks on the floor. Red polypropylene handle. Recommended for bi-component paints, epoxy and polyester resins. Pro Series.

TIPS FOR USE: Wash with plenty of water and leave to dry. Drain the roller well before applying the paint on the floor. Do not apply too much pressure when painting to avoid damaging the fabric.

HOLDERS for exchangeable floor rollers

Floor roller holder adjustable from 30 cm to 50 cm

Item Code	Measure	Units box
8427193 018162	30 cm - 50 cm	1

Easy to use and very resistant. Extends from 30 cm to 50 cm.
Support for our exchangeable rollers
Recommended for speeding up work on painting floors.
Black polypropylene handle

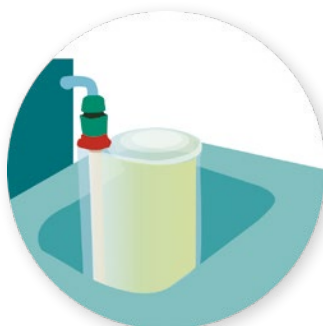

Roller cleaning system

ABR EASY-CLEANER

For water-based paints

1. Connect to a water supply by means of a quick hose connector.

2. Open the water inlet and hold the roller during the washing process.

3. After the indicated time has elapsed, close the water inlet.

ABR EASY-CLEANER, is a pressurised water system for quick and easy cleaning of the paint rollers once we have finished our work. With this **EASY-CLEANER** system, we avoid the uncomfortable task of cleaning the paint rollers. We need a regular water supply and drainage. In this way we also contribute to saving water.

Roller cleaning system

Step 2

Step 3

Usage tips for rollers

Rollers are an indispensable tool for painting walls, ceilings and other surfaces quickly and easily. When it is a large surface, brushes are insufficient, as they would require more arduous work, and in addition, with the roller we avoid leaving any possible marks.

It is really easy to use, but it is best to know a few tips before starting this work for the first time:

To avoid loose fibres or impurities, it is very important to wash the roller and wring it out well, this will remove any remaining particles. After this it will be ready to be soaked in the paint.

An indispensable element is the bucket with a drainer, to be able to comfortably load the paint and drain it at the same time, as too much paint can lead to a bad finish of our work.

The first coat of paint with a roller should be applied in vertical stripes and the second in horizontal stripes.

It is advisable to paint in strips. It is advisable when painting a wall to start at half height, and then go up to the ceiling without touching it, covering the remaining part with a brush or paint brush, or more comfortably with the exchangeable special cut-out roller. We go down to the skirting board without touching it (for this purpose we use tape or tape plus paper to avoid staining the skirting boards). After the first coat has dried, apply the second coat horizontally, the following coats are used to spread the paint; this should be done a sufficient number of times, but not too often, as there is a risk of removing too much paint and leaving too little on the surface.

To paint the upper parts, it is advisable to add an extension to the roller handle. This will allow you to work more comfortably.

Never press the roller against the surface: just glide it over the surface.

ABR has a wide range of rollers with different sizes, diameters and fabrics, suitable for each type of work to be carried out.

How we package our spare parts

In 1 unit or 2 units with flow pack system

In 1 unit or 2 units with display box

In special blister pack of 2 pieces

In blister packs of 10 or 20 pieces

In 2 pcs blister pack with handle

TIPS FOR USE: It is advisable to wipe gently the first time to remove excess hair.
When the work is finished, clean the flat brush with a suitable solvent or water, then let it dry.

100% pure bristle flat brushes

Flat brushes made of pure bristle. This type of bristle gives a smooth finish and at the same time retains a lot of paint. They are more suitable for oil-based paints, as natural bristles are more resistant to chemicals.

Handmade manufacture of block brushes

Round brushes

Brush manufacturing process

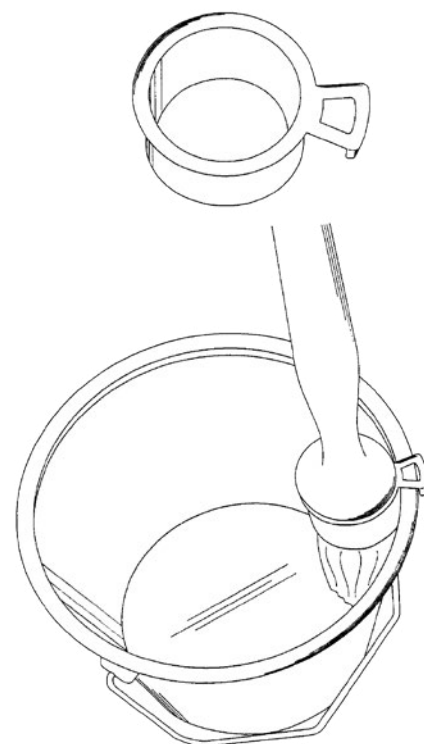

At ABR we achieve production levels in line with our customers' demands. Due to the **modern machinery** we are introducing, we have achieved high levels of **efficiency and optimisation in manufacturing**.

ABR Hanger

Convenient and safe system, which avoids the brush from falling into the bucket.

Brush hanger, characterised by being made up of a monoblock body made of rigid plastic material, with an inverted truncated cone-shaped body with a blunt perimeter flange in the upper area of greater diameter, with a transversal protrusion emerging outwards, from the lower end of which a second protrusion emerges, forming a 90° angle.

RENEWED PATENT
ANTI-TWIST

Manufacturing process of paintbrushes

Useful tips

Paint, round and flat brushes

Brushes are very versatile tools, which is why they are essential for painting and decorating work.

Before starting work, it is essential for both professional painters and do-it-yourselfers to choose the tool that best suits your project. This will guarantee a perfect result.

The flat brushes always have a flat shape, with different handles according to the taste of each consumer and different hair for each type of project.

Natural bristle, fibres, PBT fibres, the latter are distinguished by their high resistance to solvents.

Our choice of brush, flat brush or paintbrush will depend on the type of surface to be painted and the type of paint to be used.

Flat or round brushes have a long handle and are especially suitable for application in difficult to reach places where other tools fail.

The round brushes are made with rounded bristles and are therefore ideal for trimming work.

Never forget the proper maintenance of these tools, as their durability depends on it, always clean them with the right product, let them dry completely and store them with the hair fully stretched without folds.

Resistant and environmentally friendly thanks to their manufacture from recycled black plastic
Sloping bottom
Corner for pouring liquids and litre meter
Multiple uses

Ref: 009320 with metallic grid

We respect the environment

TIPS FOR USE: Clean the bucket with water so that no residues are left for the next use.

Bucket cover 16-litre

Item Code	Units box
8427193 036210	12

Resistant, environmentally friendly and disposable. They allow the use of several paint colours with one bucket
Perfect fit in the bucket

INSTRUCTIONS FOR USE: Remove carefully when work is finished and then throw away.

We respect the environment

Lid with built-in mini bucket for 16-litre bucket

Item Code	Colour	Units box
8427193 036234	Transparent	12

Made of resistant transparent plastic, lid and at the same time mini paint bucket with drainer. You can paint and paint over with a spare part mini roller at the same time, while keeping the paint as a lid without damaging it. Fits perfectly to the 16 litre bucket

Available in complete pallets

TIPS FOR USE: Clean thoroughly to avoid paint residues for subsequent use.

16-litre bucket grids

Plastic grid for 16-litre bucket

Item Code	Measure	Units box
8427193 008767	26cm x 30cm	12

We respect the
environment

Highly resistant to pressure
of the roller when wringing out
Fits precisely to the bucket by means
of two flanges
With perforations for the discharge of
excess paint

Reinforced plastic grid for 16-litre bucket

Item Code	Measure	Units box
8427193 008774	26cm x 30cm	12

We respect the
environment

Extra resistant to the pressure
of the roller when wringing out thanks
to reinforced plastic
Fits precisely to the bucket by means
of two flanges
With circular perforations for the
discharge of excess paint

Metal grid for 16-litre bucket

Item Code	Measure	Units box
8427193 026228	26cm x 30cm	12

Great resistance to the pressure of
the roller
when draining thanks to its
galvanised steel construction
Fits precisely to the bucket
With circular perforations for the
discharge of excess paint

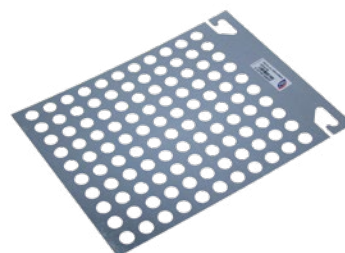

Metal grid for paint cans

Item Code	Measure	Units box
8427193 026259	13,5cm x 24cm	12

Indispensable protection

We have machinery of the **highest level of production** which gives us a **great competitive advantage**

Presentation in **display box**

Available in **complete pallets**

Accurately measured length

Multilingual label

40 g/m² papers in PRO and ECO ranges 15 % more protection than other brands

Inner tube for comfort and strength

Solvent based adhesive tape 60° C of 19mm, 25% more than other brands, provides better adhesion

Larger width. Our measurement includes the width of the tape

With a turned-up end to retain splashes

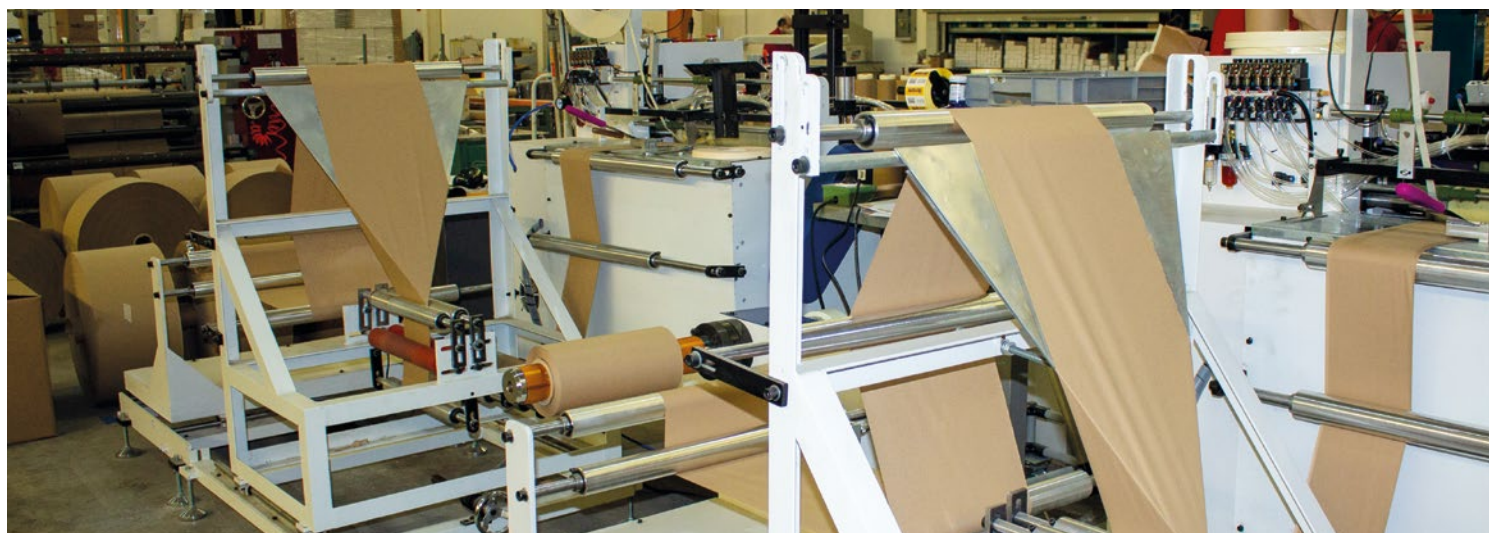

And now with **double folded paper!**

Tape paper comes with even more features, it now unfolds once placed on the plinth or surface to be protected, giving you double the amount of paper.

With this we have more protection, e.g. we will not stain the skirting board and the floor at the same time, in the same small package format.

Protective paper with tape

Adhesive tapes

Crepe tape roll 60°

Item Code	Measure	Units box
8427193 011286	18mm x 45m	95
8427193 011293	24mm x 45m	72
8427193 011309	30mm x 45m	60
8427193 011316	36mm x 45m	48
8427193 011323	48mm x 45m	36
8427193 011330	60mm x 45m	30

45 m

For protecting all types of surfaces such as plaster, furniture, tiles, glass, etc.
For industrial and DIY use
Ideal for car body work
Very easy to glue and cut
Resistant up to 60°.
High quality and resistance

Low tack tape roll

Item Code	Measure	Units box
8427193 36821	24mm x 45m	36

45 m

Particularly suitable for delicate surfaces such as plaster and plasterboard, due to its low level of adhesion it does not damage the surfaces.
Can resist water or solvent-based liquids
very easy to glue and cut

Roll of washi tape

Item Code	Measure	Units box
8427193 011415	24mm x 45m	36

45 m

Particularly suitable for work requiring high precision such as stripes, decoration, etc.
Does not damage delicate surfaces
very easy to glue and cut

TIPS FOR USE: Remove the tape before the paint is completely dry.

Adhesive tapes

Roll of blue outdoor tape

Item Code	Measure	Units box
8427193 032403	24mm x 45m	72
8427193 032410	48mm x 45m	36

45 m

For the protection of all surfaces, especially outdoors
Very easy to glue and cut
UV and water resistant
High quality and resistance

TIPS FOR USE: Remove the tape before the paint is completely dry.

Brown packaging tape roll

Item Code	Measure	Units box
8427193 017189	48mm x 66m	72

25 m

This tape is essential for all toolboxes and workshops and can be used for a variety of tasks both indoors and outdoors. It is also useful to keep in the home to use for various jobs.
Highly durable
Easy to label
Versatile multi-purpose

TIPS FOR USE: Thoroughly clean the surface to be worked on before gluing.

Adhesive tape applicator

Item Code	Measure	Units box
8427193 017219	20 x 12 cm	1

For precise and safe application of the adhesive packaging tape
Comfortable non-slip handle
Hidden blade to avoid cuts
Very light weight
For 48mm packaging tapes

Preparation of surfaces

ABR Tips

The best paint in the world is not going to do much good if we do not prepare the surface to be painted in a proper way.

It is not a good decision to start painting without first scraping, sanding and cleaning, as it is quite possible that the product will not adhere properly.

Although it may sometimes seem tedious, time-consuming or unnecessary, it is well worth the effort. The time and cost invested in this preparation work

pays off in a better quality and longer lasting finish and the professionals know this..

That's why ABR has a wide range of specialised tools for this purpose, making them ideal for use in preparation work.

Exchangeable spare parts with metering unit

Plastic cutter
18 mm blade

Item Code	Measure	Units box
8427193 018025	18 mm	24

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017998	18 mm	24

Designed to produce fine incision lines for precision cutting. Suitable for plastics, laminated materials, papers
Blade retraction system
Exchangeable spare parts with metering unit

Metallic guide cutter
9 mm blade

Item Code	Measure	Units box
8427193 017967	9 mm	24

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017974	9 mm	24

Increased precision thanks to metal guide. Suitable for plastics, laminated materials, wallpaper, artificial grass, cardboard.
Blade retraction system
Exchangeable spare parts with metering unit

133

Metallic guide cutter
blade 18 mm

Item Code	Measure	Units box
8427193 017981	18 mm	24

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017998	18 mm	24

Increased precision thanks to metal guide. Suitable for plastics, laminated materials, wallpaper, cardboard.
Blade retraction system
Exchangeable spare parts with metering unit

TIPS FOR USE: Make the cut parallel to the object, also place the opposite hand away from the direction of the cut. The direction you use should be outwards, avoiding twisting or bumping.

Cutters

Professional cutter
bi-material handle

Item Code	Measure	Units box
8427193 017950	18 mm	12

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017998	18 mm	24

For more professional cutting work, more comfort thanks to the bi-material handle, and greater precision. Suitable for plastics, laminated materials, wallpaper, artificial grass, cardboard.
Blade retraction system
Exchangeable spare parts with dispenser.

Cutter with aluminium
body

Item Code	Measure	Units box
8427193 025092	18 mm	12

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017998	18 mm	24

The strongest cutter in our range, with minimum weight as it is made of aluminium.
Increased strength and durability
Blade retraction system
Exchangeable spare parts with dispenser.

Automatic cutter

Item Code	Measure	Units box
8427193 018186	18 mm	12

Exchangeable spare part blade
pack 10 pcs.

Item Code	Measure	Units box
8427193 017998	18 mm	24

Maximum safety cutter with automatic retraction and protected blade. When the cutter is not on a surface, it retracts to prevent accidents.

TIPS FOR USE: Make the cut parallel to the object, also place the opposite hand away from the direction of the cut. The direction you use should be outwards, avoiding twisting or bumping.

Cutter for
wallpaper

Item Code	Units box
8427193 025108	12

Its design makes it ideal for fast and precise cutting of wallpapers.
Comfortable and very light

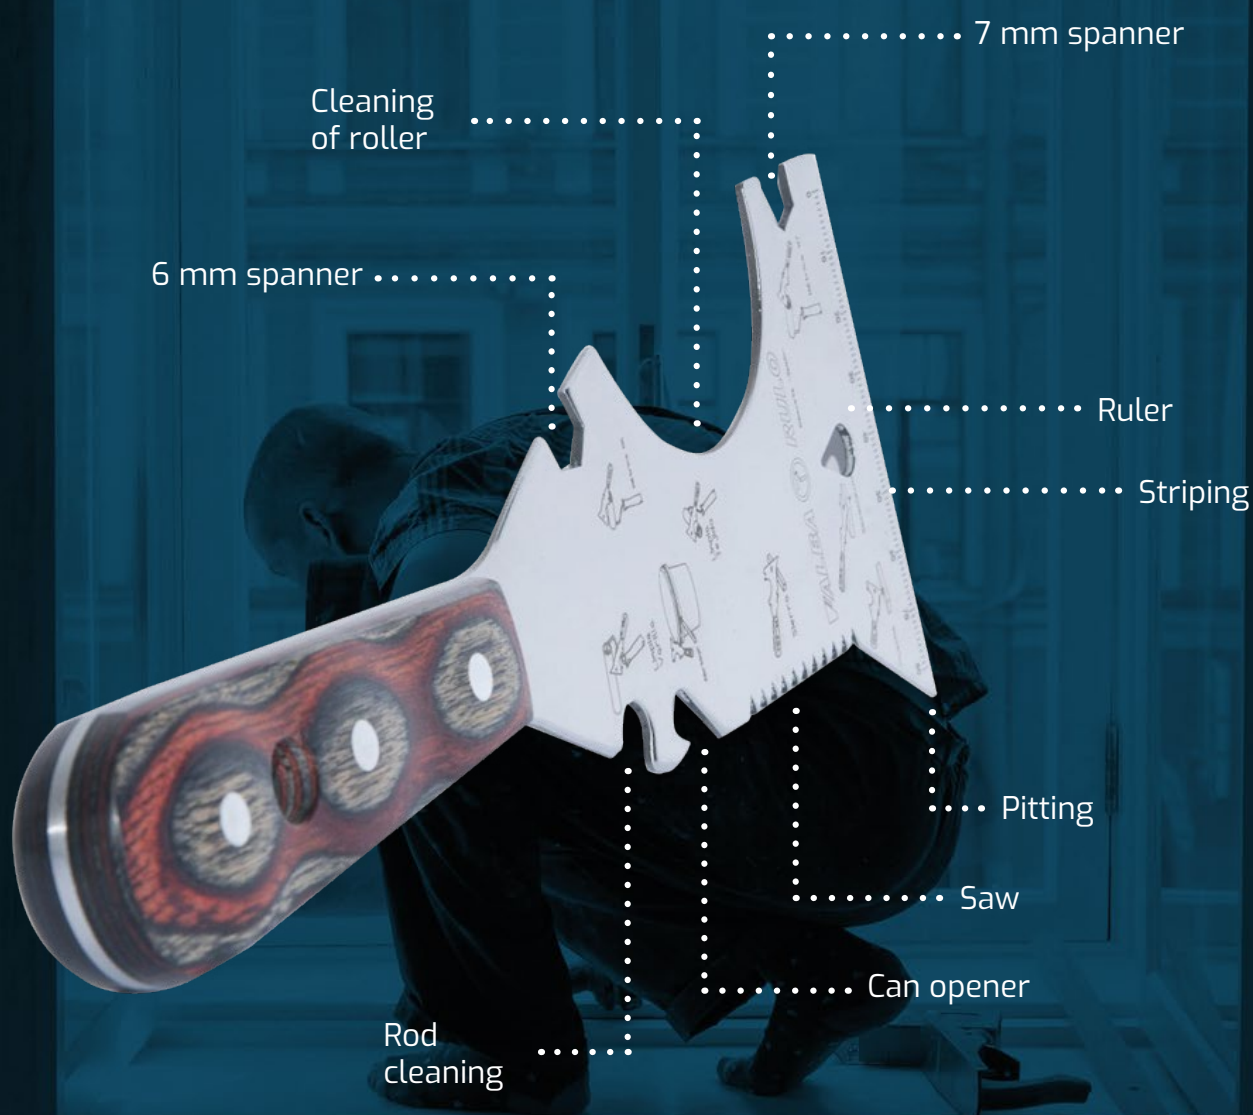

TIPS FOR USE: Place the wallpaper on a flat surface.

inox

Metallic brushes

Metallic brush with plastic handle

Item Code	Handle	Units box
8427193 018513	Plastic	12

Useful brush for cleaning rust and paint on sheet metal doors, iron stairs.
Very strong metal wires
Light and comfortable handle
Functional design

Metallic brush pro beech wood handle

Item Code	Handle	Units box
8427193 020158	Wood	12

3 rows

Useful brush for cleaning rust and paint on sheet metal doors, iron staircases, welds, etc.
Steel wires very strong
Lightweight beech wood handle

Metallic brush pro beech wood handle

Item Code	Handle	Units box
8427193 018520	Wood	12

4 rows

Useful brush for cleaning rust and paint on sheet metal doors, iron staircases, welds, etc.
Steel wires very strong
Lightweight beech wood handle

Metallic brush pro beech wood handle

Item Code	Handle	Units box
8427193 018537	Wood	12

5 rows

Useful brush for cleaning rust and paint on sheet metal doors, iron staircases, welds, etc.
Very resistant steel wires
Lightweight beech wood handle

Mini metallic brush

Item Code	Units box
8427193 019893	12

Useful brush for cleaning rust and paint on sheet metal doors, welds. Especially in small places
Very strong metal wires
Light and comfortable handle
Functional design

TIPS FOR USE: Wear resistant gloves to avoid possible scratches on the hands.

Whitewashing tools

Whitewashing brush

Item Code	Units box
8427193 027478	12

Its use is particularly suitable for whitewashing.
Synthetic fibres
Removable polypropylene handle

Big round brushes

Nylon brush

Item Code	Number	Units box
8427193 024941	2	8
8427193 024958	3	8

Coloured synthetic fibres
With light plastic capsule
Wooden handle with hanging hole

Natural bristle brush

Item Code	Measure	Handle	Units box
8427193 026297	12 cm	50	12
8427193 026303	12 cm	100	12
8427193 026310	15 cm	50	12
8427193 026327	15 cm	100	12

Used to polish a wood or metal surface by repeated rubbing. For polishing wood surfaces, for general cleaning, even in livestock farming.
Round shape
Natural bristle
Various handle sizes according to use

Nylon brush

Item Code	Measure	Handle	Units box
8427193 026334	12 cm	50	12
8427193 026341	12 cm	100	12
8427193 026358	15 cm	50	12
8427193 026365	15 cm	100	12

For general cleaning, whitewashing
Round shape
Synthetic nylon fibres
Various handle sizes depending on use

TIPS FOR USE: Do not use with highly abrasive paints.

Your safety first

The objective of prevention is the continuous improvement of working conditions aimed at raising the level of worker safety.

For this reason, ABR has a line of specific articles for personal protection.

ABR Personal Protection

Protective goggles

Item Code	Units box
8427193 019534	6

TIPS FOR USE: Adjust the rubber band properly before starting work to avoid excessive pressure on your face.

Professional quality, these goggles are indispensable to protect your eyes from splashes of paint, sand, cement, chemicals and other products.
Made of clear polycarbonate.
Adjustable strap.

Professional breathable coverall

Item Code	Size	Units box
8427193 031987	XL	10

Suitable for professional use in phytosanitary works, spray paint applications.
Very easy to put on and take off
Zip fastening
Hood included

Protective coverall p.p.

Item Code	Size	Units box
8427193 017684	XL	25
8427193 017691	XXL	25

Suitable for professional use in phytosanitary works, spray paint applications.
Very easy to put on and take off
Zip fastening
Hood included

Coverall TYVEK classic

Item Code	Size	Units box
8427193 031994	XL	10
8427193 032007	XXL	10

Chemical protection, acts as a barrier against low concentrated inorganic chemicals and particles

Tyvek®
White coverall with hood
Ergonomic protective design
External stitched seams
Zip fastening
Very comfortable to put on and take off.
Hood included

TIPS FOR USE: Do not cut the packaging bag with a cutter to avoid damaging the product.

ABR Personal Protection

Disposable paper face mask pack 50 units

Item Code	Units box
8427193 019503	50

Protects against dust and other common agents
Adjustable rubber strap
Nose adjustment

Protective mask CE FFP2 with valve

Item Code	Units box
8427193 019527	24

Protects against dust and other common agents
Adjustable rubber strap
Nose adjustment
With CE FFP2 filter

Folded protective mask CE FFP2 approved

Item Code	Units box
8427193 021698	24

CE FFP2

Protects against dust and other common agents. The valve reduces discomfort by allowing exhaled air to escape from the mask and preventing heat build-up inside the mask.
Adjustable rubber strap
Foldable
CE FFP2

TIPS FOR USE: Do not use with highly hazardous products. Never use during asthmatic crisis. Use only in adequately ventilated areas containing sufficient oxygen.

Presentation in display boxes

ABR Personal Protection

Folded protective mask
with CE FFP2 approved valve

Item Code	Units box
8427193 021704	24

CE FFP2

Protects against dust and other common agents.
Valve reduces discomfort by allowing exhaled air to escape from the mask and preventing heat build-up on the inside
Adjustable rubber strap
Foldable
CE FFP2
With valve

Folded protective mask
with CE FFP3 approved valve

Item Code	Units box
8427193 021711	24

CE FFP3

Protects against dust and other common agents. The valve reduces discomfort by allowing exhaled air to escape from the mask and preventing heat build-up inside the mask.
Adjustable rubber strap
Foldable
CE FFP2
With valve

TIPS FOR USE: Do not use with highly hazardous products. Never use during asthmatic crisis. Use only in adequately ventilated areas containing sufficient oxygen.

Oral-nasal mask with two exchan-
geable filters

Item Code	Units box
8427193 032014	1

The oral-nasal mask offers increased protection for paint and chemical work, is easy to handle, extremely light and low-maintenance. Lightweight material for greater comfort during long periods of work. Especially for professional work
Reusable
Support for perfect fit on the head, adjustable
Two exchangeable filters included

141

Pair of filters for oral-nasal mask
EN/141 EN/143

Item Code	Units box
8427193 032021	1

Resistant, for the ABR oral-nasal mask
Easy to use

Gloves

Industrial gloves

Gloves with lycra-nylon palm

Item Code	Size	Units box
8427193 036364	L	12

EN 388

Allows the handling of wet and dry parts.
Applications in the automotive sector, handling of small parts, maintenance and assembly. General packaging work
With nitrile palm
Super resistant and comfortable
Breathable
Reusable
Lycra-Nylon

Gloves with nitrile-nylon palm

Item Code	Size	Units box
8427193 036371	L	12

EN 388

Allows the handling of wet and dry parts.
Applications in the automotive sector, handling of small parts, maintenance and assembly. General packaging work.
Made of nylon and Lycra, with nitrile palm.
nitrile palm
Very resistant and comfortable
Reusable
Nitrile-Nylon

White polyurethane gloves

Item Code	Size	Units box
8427193 018677	8	12
8427193 018674	9	12

EN 388

Used in the automotive sector, packaging, warehouses, factories, maintenance and assembly.
Seamless polyurethane coating
One-piece
Stretch fabric that fits snugly perfectly to the hand
Reusable

TIPS FOR USE: Read before use the pictogram of risk and performance levels for a correct use of the glove.

Industrial nitrile gloves

Item Code	Size	Units box
8427193 037019	L	12

Ideal for daily use by workers in hospitals, shopping malls, handling chains or bars and restaurants, high abrasion resistance.
Made of 100% nitrile in blue colour
Cotton flocked interior
Perfect grip
Reusable

TIPS FOR USE: Do not use with very abrasive chemicals.

Gloves

Nitrile gloves

Pack of 100
blue nitrile gloves

Item Code	Size	Units box
8427193 037057	M	1
8427193 018704	L	1

Multi-purpose, hospitals, shops, bars, cleaning services, food. They have higher puncture resistance than latex gloves.
Made of 100% nitrile in blue colour
Disposable
Single use only
Ambidextrous
Dispenser box of 100 units

Pack of 10
blue nitrile gloves

Item Code	Size	Units box
8427193 022244	L	35

Multi-purpose, hospitals, shops, bars, cleaning services, food. They have higher puncture resistance than latex gloves.
Made of 100% nitrile in blue colour
Disposable
Single use only
Ambidextrous
Bag of 10 units

Pack of 100
black nitrile gloves

Item Code	Size	Units box
8427193 037033	L	1

Multi-purpose, widely used in the hairdressing, tattooing and workshop sectors. They are more resistant to punctures than blue nitrile gloves.
Made of 100% black nitrile
Disposable
Single use only
Ambidextrous
Dispenser box of 100 units

TIPS FOR USE: Choose the right size, if the glove is too big it will cause a great loss of touch, on the contrary if it is too small it will cause fatigue in the hand due to the pressure applied to the hand.

Gloves

Multipurpose gloves

Reinforced gloves
green-yellow

Item Code	Size	Units box
8427193 037026	L	12

Its use is indicated for masonry cleaning and water works in general.
Reinforced
Resistant to wear and tear

TIPS FOR USE: Do not use with highly abrasive products.

Guantes de látex

Pack of 100
latex gloves

Item Code	Size	Units box
8427193 018681	M	1
8427193 018698	L	1

Multi-purpose, hospitals, shops, bars, cleaning services, foodstuffs, painting, etc.
Disposable
Durable and comfortable
Ambidextrous
Dispenser box of 100 units

TIPS FOR USE: Choose the right size, if the glove is too big it will cause a great loss of touch, on the contrary if it is too small it will cause fatigue in the hand due to the pressure applied to the hand.

Pack of 10
latex gloves

Item Code	Size	Units box
8427193 022220	M	35
8427193 022237	L	35

Multi-purpose, hospitals, shops, bars, cleaning services, foodstuffs, painting, etc.
Disposable
Durable and comfortable
Ambidextrous
Bag of 10 units

TIPS FOR USE: Do not use with highly abrasive products.

TIPS FOR USE: Use the appropriate grit for each piece, for a good result. Wear a mask, goggles and gloves.

By preparing the surfaces with sandpaper
the result of your work will be absolutely perfect

Special sandpaper

Steel wool coil

Item Code	Grit	Grammage	Units box
8427193 031819	Fine 0000	75 gr	40
8427193 031826	Medium 00	75 gr	40
8427193 031833	Thick 2	75 gr	40
8427193 031840	Fine 0000	150 gr	30
8427193 031857	Medium 00	150 gr	30
8427193 031864	Thick 2	150 gr	30

For polishing furniture,
marble or wood.
Available in several different
grits depending on the work
to be done
Highly resistant

Corundum roll

Item Code	Measure	Grammage	Units box
8427193 036517	120 x 25 cm	80 gr	12
8427193 036524	120 x 25 cm	100 gr	12
8427193 036531	120 x 25 cm	120 gr	12

Especially suitable for ferrous and
non-ferrous metals, hardwoods,
plastics, etc.
High performance aluminium
oxide
Hand or machine use
Very flexible

TIPS FOR USE: Due to the flexibility of its
its fabric backing, it is advisable to use it on curved pieces without
causing scratches (mouldings)... Wear a mask, goggles and gloves.

Sponge sandpapers

Sponge sandpaper

Item Code	Measure	Grit	Units box
8427193 010456	27x68x100 mm	Fine	250
8427193 010470	27x68x100 mm	Medium	250
8427193 010494	27x68x100 mm	Thick	250

Easy handling: the sanding
sponge is flexible and
adapts perfectly to the
workpiece to ensure efficient
removal of the material. For
furniture, wood, iron, walls,
etc.
Available in three different
grits depending on the work
to be done.
Supplied in a display box
Very flexible and resistant

145

Sponge sandpaper pack 50 units

Item Code	Measure	Grit	Units box
8427193 011422	27x68x100 mm	Fine	50
8427193 011439	27x68x100 mm	Medium	50
8427193 011446	27x68x100 mm	Thick	50

Easy handling: the sanding
sponge is flexible and
adapts perfectly to the
workpiece to ensure efficient
removal of the material. For
furniture, wood, iron, walls,
etc.
Available in three different
grits depending on the work
to be done.
Supplied in packs of
of 50 pcs.
Very flexible and resistant

Sponge sandpapers

Pack of 2 sponges

Item Code	Measure	Grit	Units box
8427193 007975	27x68x100 mm	Fine	24
8427193 007999	27x68x100 mm	Medium	24
8427193 008002	27x68x100 mm	Thick	24

Easy handling: the sanding sponge is flexible and adapts perfectly to the workpiece to ensure efficient removal of the material. For furniture, wood, iron, walls, etc.
Available in three different grits depending on the work to be done
Very flexible and durable

Sanding blocks

Sanding block

Item Code	Measure	Grit	Units box
8427193 010517	14x98x123 mm	Fine	250
8427193 010531	14x98x123 mm	Medium	250
8427193 010555	14x98x123 mm	Thick	250

Easy handling: the sanding sponge in block is ideal for rigid surfaces, ideal for efficient removal of material from walls, floors and ceilings.
Available in three different grits depending on the work to be done
Supplied in a display box
Highly resistant

Sanding block 50 units

Item Code	Measure	Grit	Units box
8427193 011453	14x98x123 mm	Fine	50
8427193 011460	14x98x123 mm	Medium	50
8427193 011477	14x98x123 mm	Thick	50

Easy handling: the sanding sponge in block is ideal for rigid surfaces, ideal for efficient removal of material from walls, floors and ceilings.
Available in three different grits depending on the work to be done
Supplied in packs of 50 pcs.
Highly resistant

Pack 1 sanding block

Item Code	Measure	Grit	Units box
8427193 007173	14x98x123 mm	Fine	35
8427193 007180	14x98x123 mm	Medium	35
8427193 007197	14x98x123 mm	Thick	35

Easy handling: the sanding sponge in block is ideal for rigid surfaces, ideal for ensuring effective stock removal on walls, floors and ceilings, planks, boards, etc.
Available in three different grits depending on the work to be done
Highly resistant

TIPS FOR USE: Use the appropriate grit for each piece, for a good result.
Wear a mask, goggles and gloves.

Sheets of sandpaper

Sheet of wood sandpaper

Item Code	Measure	Grit	Units box
8427193 018544	230 x 280 mm	40 gr	50
8427193 036388	230 x 280 mm	60 gr	50
8427193 018551	230 x 280 mm	80 gr	50
8427193 018568	230 x 280 mm	100 gr	50
8427193 018575	230 x 280 mm	120 gr	50
8427193 036395	230 x 280 mm	150 gr	50

Suitable for sanding all types of wood, chipboard, building boards, paint, varnish and plasterboard.
Very flexible and easy to handle

Sheet of waterproof sandpaper

Item Code	Measure	Grit	Units box
8427193 018612	230 x 280 mm	80 gr	50
8427193 018629	230 x 280 mm	100 gr	50
8427193 018636	230 x 280 mm	120 gr	50
8427193 018643	230 x 280 mm	150 gr	50
8427193 018650	230 x 280 mm	180 gr	50
8427193 036401	230 x 280 mm	240 gr	50
8427193 036418	230 x 280 mm	320 gr	50
8427193 036425	230 x 280 mm	400 gr	50
8427193 036432	230 x 280 mm	600 gr	50

Used for hand sanding heavy-duty surfaces such as stone, wood, steel and other metals, as well as for polishing ceramics and wood.
Various jobs such as handicrafts, furniture restoration, car paint repairs and more
Very flexible and handy
Waterproof

Sheet metal sandpaper

Item Code	Measure	Grit	Units box
8427193 036449	230 x 280 mm	40 gr	50
8427193 036456	230 x 280 mm	50 gr	50
8427193 036463	230 x 280 mm	60 gr	50
8427193 036470	230 x 280 mm	80 gr	50
8427193 036487	230 x 280 mm	100 gr	50
8427193 036494	230 x 280 mm	120 gr	50
8427193 036500	230 x 280 mm	150 gr	50

Ideal for grinding and polishing of metal surfaces and steel
Highly resistant
Emery cloth

TIPS FOR USE: Use the appropriate sanding sheet for each application, for a good result of the work. It is advisable to wear glasses and gloves.

Sanding accessories

Rubber sanding block

Item Code	Measure	Units box
8427193 017646	65 x 125 mm	1

This tool will make your sanding work much more comfortable, avoiding hand chafing, especially used in the automotive sector. Very durable and comfortable. To be used together with sanding paper

Manual sander with locking device

Item Code	Measure	Units box
8427193 020141	105 x 112 mm	1

Ergonomic design. Incorporates a quick sandpaper change system. Very light and resistant. For sanding flat surfaces, such as walls, furniture...etc, with complete comfort. With rubber base for better adaptation. Quick change system. With fasteners. Very durable and comfortable. To be used together with sanding paper

Sanding support with thread

Item Code	Measure	Units box
8427193 017639	85 x 230 mm	1

Manual sander, with threaded support. To reach high places. Ceilings, furniture. Very light and strong. With rubber base for better adaptation. Very durable and comfortable. To be used together with sanding paper

TIPS FOR USE: Use the appropriate grit for each piece, for a good result. Wear a mask, goggles and gloves.

Wallpapering accessories

Complete wallpapering set

Item Code	Units box
8427193 029953	12

TIPS FOR USE: Glue the wall as well as the paper for better adhesion. Allow to dry for a few minutes and then apply the paper.

All the tools you need to apply wallpaper in one set....

- Wallpapering brush with handle
- Wallpapering brush
- Smoothing roller
- Cutter
- Sponge

Wallpapering table

3 metres

Item Code	Measure	Units box
8427193 017752	300 cm	1

60 cm width x 78 cm height

TIPS FOR USE: Clean the table thoroughly with soap and water before folding.

High-quality folding table with aluminium frame and legs and a multi-purpose design, ideal and indispensable for wallpapering works. Lightweight due to its aluminium construction. Folds away for easy transport and storage. Extendable up to 3 metres.

Wallpapering brush natural bristle

Item Code	Measure	Units box
8427193 025115	30 cm	6

Its use is indicated for the correct and comfortable application of glues on wallpaper.

Light wooden handle
Made of natural bristles

Wallpapering brush synthetic bristle

Item Code	Measure	Units box
8427193 017769	30 cm	6

Its use is indicated for the correct and comfortable application of glues on wallpaper.

Light wooden handle
Made of synthetic bristles

TIPS FOR USE: Clean the bristles thoroughly with water after use.

Wallpapering accessories

Trimming ruler

Item Code	Measure	Units box
8427193 036623	45 cm	12

This tool is used for measuring, smoothing and adjusting wallpaper, ideal for marking cuts from ceiling to wall.
Lightweight due to its plastic construction
With measuring ruler

Smoothing wedge

Item Code	Measure	Units box
8427193 017783	28 cm	12

Indispensable aid for wallpaper application
Removes imperfections, wrinkles and bubbles from the wallpaper once it has been laid on the wall, simply by pressing on it
Pointed end for corners
Made of lightweight blue plastic
With hanging hole

Wallpaper guide

Item Code	Measure	Units box
8427193 017776	24 cm	12

This tool allows you to smooth and adjust the wallpaper, ideal for marking cuts from the ceiling to the wall. Eliminates possible bubbles
Lightweight due to its plastic construction

Wallpapering cutter

Item Code	Measure	Units box
8427193 019497	30 cm	12

Special cutter for cutting wallpaper, practical and very useful for cutting wallpaper easily.
Blue polypropylene handle with hanger
Stainless steel blade

Wallpapering accessories

Stainless steel wallpapering scissors

Item Code	Measure	Units box
8427193 018728	29 cm	6

inox

These scissors have the design and length ideal for precise and fast cutting of wallpaper
Blue polypropylene handle
Stainless steel blades

Smoothing foam roller

Item Code	Measure	Units box
8427193 017790	4 cm	12
8427193 017806	15 cm	12

Roller for edges and bubbles. By applying pressure on the joints of the paper it sticks completely.
Blue polypropylene handle with hanger
Very resistant foam roller
very resistant

Rigid smoothing roller

Item Code	Measure	Units box
8427193 036555	4 cm	12

Roller for edges and bubbles. By applying pressure on the joints of the paper it sticks completely.
Comfortable wooden handle
Very resistant rigid plastic roller

TIPS FOR USE: Clean the glue residues thoroughly at the end of the work.

Aluminium body caulk gun

Item Code	Units box
8427193 017745	12

Aluminium-bodied sealer for professional use for multiple cartridges, glues, silicones, putties, etc.
Polyester finish for high resistance when applying and distributing the contents.
Special for high viscosity
Very light weight
Easy to use

TIPS FOR USE: For a good result with the caulk gun, press the device gently so as not to apply too much product.

Cleaning and polishing

White 100% cotton sheeting cloth

Item Code	Measure	Units box
8427193 033011	1 kg	12

1st quality white cotton knitted cloth
Great absorption power
Use for commercial and industrial activities,
cleaning of trucks, vans, machinery...as well
as domestic cleaning in general.

Multi-purpose cloth

Item Code	Measure	Units box
8427193 033028	1 kg	12

Cloths of various colours and fabrics
For industrial cleaning and domestic
cleaning in general.

Household sweeping brushes

Egeo Sweeping Brush

Item Code	Measure	Units box
8427193 027461	32 cm	12

Sweeping or broom brush for general use,
suitable for all types of floors, brush for
domestic and catering use,
medium hardness
Thread for handle or stick
Green fibres

Caspio sweeping brush

Item Code	Measure	Units box
8427193 027430	32 cm	12

Sweeping or broom brush for general use,
suitable for all types of floors, brush for
domestic and catering use,
medium hardness
Thread for handle or stick
Red fibres

Broomstick

Item Code	Measure	Units box
8427193 027508	140 cm	12

Ideal for the conventional sweeping brush
Made of plastic
Strong and resistant

Dustpan

Plastic dustpan

Item Code	Units box
8427193 037125	12

Its use is recommended for private houses,
flats, chalets, homes or communities of
owners. Factories
and shops.
Ideal for conventional sweeping brushes
Made of resistant polypropylene plastic.
Strong and resistant
With stick included

TIPS FOR USE: Keep indoors for a longer shelf life.

Industrial sweeping brushes

Sweeper brush

Item Code	Measure	Units box
8427193 027546	400 x 650 mm	12
8427193 027553	520 x 650 mm	12

Industrial sweeping brush for use in gardens, yards, factories, exteriors, streets, car parks, etc.
Reinforced wooden body
Highly resistant black fibres

TIPS FOR USE: Use with the appropriate claw and corresponding pole.

Sweeper's claw

Item Code	Units box
8427193 027614	12

This claw is a must for using the sweeping brush.
Very strong and easy to use
Thanks to its handle system, the brush is held firmly in place without moving

Sweeper pole

Item Code	Measure	Units box
8427193 027638	120 cm	12

Indispensable accessory for using the sweeping brush
Made of highly resistant wood
Without thread

TIPS FOR USE: Place on the sweeping brush, close the handle and then insert the wooden stick.

Sweeper brush plastic body

Item Code	Measure	Units box
8427193 027515	40 x 65 cm	12

Industrial sweeping brush for use in gardens, yards, factories, outdoors, streets, car parks, etc.
Plastic body
Resistant brown fibres

TIPS FOR USE: Use with the appropriate claw and corresponding stick.

Pole for sweeper brush with plastic body

Item Code	Measure	Units box
8427193 027645	120 cm	12

Indispensable accessory for using the sweeping brush
Made of highly resistant wood
With thread

TIPS FOR USE: Place on the sweeping brush, close the handle and then insert the wooden stick.

Industrial sweeping brushes

Vessel brush

Item Code	Units box
8427193 037156	12

TIPS FOR USE: Use with the corresponding brush pole.

Cepillo para fregar la suciedad incrustada y persistente de los suelos
Aguanta la fuerte presión
Gracias a su pequeño tamaño, es idóneo para tareas concentradas o en entornos reducidos
Fibras rizadas color azul extra fuerte

Vessel brush pole

Item Code	Measure	Units box
8427193 027621	115 cm	12

TIPS FOR USE: Its use is essential for the vessel brush.

Indispensable accessory for the vessel brush
Wooden with thread

Window glass cleaners

Window cleaners

Item Code	Units box
8427193 037149	12

TIPS FOR USE: Gently glide over the surface and remove the used product.

Tool for cleaning glass quickly and effectively. Households, factories, establishments and home.
Plastic body
Easy to use
With thread to add pole

Metallic drainer

Item Code	Measure	Units box
8427193 037132	60 cm	12

TIPS FOR USE: Avoid damaging the electrostatic paint to avoid corrosion.

Drainer for drying floors and large surfaces
Aluminium body
Easy to use

Accessories for paint filtration

Completely smooth and pure paints

Sieve holder

Item Code	ø	Units box
8427193 032434	13 cm	1
8427193 032441	23 cm	1

To be used in combination with the paint filtering screen. To strain enamels and lacquers. With this tool we will leave the paints impeccable without any imperfection.
Made of aluminium

Sieve mesh

Item Code	ø	Number	Units box
8427193 032458	13 cm	40	1
8427193 032465	13 cm	60	1
8427193 032472	23 cm	40	1
8427193 032489	23 cm	60	1

To be used in combination with the sieve holder for paint filtration. For sieving enamels and lacquers. With this tool we will leave the paints impeccable without any kind of imperfection.
Made of aluminium

Disposable nylon paper filter

Item Code	Microns	Units box
8427193 033004	190	100

Perfect for filtering paint and other chemicals such as varnishes and primers. Blocks dirt particles, debris and lumps. Protects paint guns, airbrushes and other accessories from damage
Made of paper with extra fine nylon mesh
High precision

Measuring cups

Measuring cup

Item Code	Volume	Units box
8427193 036593	1250 ml	25
8427193 036586	2340 ml	25

For measuring mixtures of paints or other liquids. Water, cleaning products, oils
Keeps excess product in perfect condition thanks to its lid.
Made of clear polypropylene

Lid for measuring cup

Item Code	Volume	Units box
8427193 036609	1250 ml	25
8427193 036616	2340 ml	25

Lid for the abr measuring cup
Keeps excess product in perfect condition thanks to its lid.
Made of clear polypropylene

Whisks

Plastic paint whisk

Item Code	Measure	Units box
8427193 018087	39 cm	12

Extra long whisk ideal for 5 litre pots
Designed for easy mixing of paint by hand
Very sturdy and strong polypropylene
With hanging hole and hook for the pot
Paint repellent and easy to clean

Professional paint whisk

Item Code	Measure	Units box
8427193 018100	60 x 400 mm	12
8427193 018117	80 x 400 mm	12
8427193 018124	100 x 400 mm	12

Whisk for paints, cements and mortars in general. For drills. Suitable for professionals
Three propeller head, more performance.
Designed to mix paint and mortar easily and quickly
Robust, very resistant

TIPS FOR USE: Clean the whisk with the appropriate product each time it is used.

Special works

Machine for stipple painting

Item Code	Units box
8427193 036579	12

TIPS FOR USE: Protective gloves and glasses are recommended.

Is a special applicator for applying stippled paint, wall textures and other effects.
Professional tool
It is a very common tool among painters and renovators.
Steel case
Ergonomic handles
It can make different textures
Complete exchangeable spare part for the roller, valid in the reference

Long handled flat brush for stipple painting

Item Code	Measure	Units box
8427193 016533	39 cm	24

TIPS FOR USE: It is advisable to clean the tool thoroughly with the appropriate product after use.

Brush for covering chipping and/or missing spots on walls and ceilings with stippled surface
One-piece polypropylene handle curly fibres

Wood filler

Display stand for ABR wood filler

Item Code	Measure	Units box
8427193 027041	137 x 40 x 26 cm	1

Consisting of 20 hooks
for the containers

Fast and efficient repairs for all wood surfaces. Joints, cracks, irregularities of skirting boards, cracks and imperfections that may affect the correct finish.

It has the **ability to stretch** under any kind of pressure and then return to its original position.
